

## Directions to Peer Instruction

Peer Instructions is now available for the course. The activity is twofold: you enhance your learning by reviewing some <specific> topics of your choice and, if you do it in a right way, you improve your grade in upcoming course works as well as obtaining some bonus points to boost your grades even further. Note that no remark request or feedback (other than your grade) will be available for Peer Instruction, as it is optional and bonus.

There are a total of 8 sessions in Weeks 9 and 10.

Each session provides up to 0.5 bonus points for those students who email <a few specific questions> to a mentor not later than 48 hours in advance to the session, and attend the session actively and interactively.

As an example, specific questions for Session 2 should be emailed to [ryan.apilado@mail.utoronto.ca](mailto:ryan.apilado@mail.utoronto.ca) not later than March 12 at 4. Please, copy the instructor ([ahchinaei@cs.toronto.edu](mailto:ahchinaei@cs.toronto.edu)) in all emails. Subject of your email should be: "CSC309: Peer Instruction, Session x" where x is the session number.

Mentors are volunteer students who have obtained high grades in course components so far and are willing to help others. They will try to address your questions and review as many topics as they can during the session, such that everyone can submit a better Phase 3, 4, 5, and A2 as well as better prepared for the exam.

You all are encouraged to attend all sessions, if you can.
