CSC309 - Winter 2017

Lab 3 - Web Development Tools and Responsive Design

Dev Tools

- Try F12 in your browser, what happens?
- TA to explain:
  - DOM
  - Updating DOM
  - Console & Breakpoints

Responsive Design

- Go through the instructions in the lab code.
- Simulate a responsive website using chrome devtools. Sample
- Philosophy behind "Responsive Design" (on a mobile site):
  - drop out the less important chunks of information.
  - reduce the number of processor-heavy components.
  - reduce textual content to only highlight important content.
